

CONTRACT ADDENDUM
Contractor Requirements - Hazardous Chemicals

The term "Contractor" as used herein means the party contracting with Consumers Energy Company in the contract to which this form is attached. The term "Owner" means Consumers Energy Company.

1. The Contractor shall comply and shall ensure that its subcontractors comply, in the performance of all work and operations hereunder, with all applicable requirements of Occupational Safety and Health Standards Subpart Z (Code of Federal Regulations, Title 29, Chapter XVII, Part 1910, Subpart Z, Section 1910.1200, hereinafter referred to as "29 CFR § 1910.1200"), and of Acts 80, 67 and 79 of the Michigan Public Acts of 1986.
2. In addition to the foregoing:
 - (a) The Contractor shall notify the Owner, and shall require its subcontractors to notify the Owner, of any "hazardous chemicals" that will be used in any work or operations hereunder. Such "hazardous chemicals" shall be as defined by 29 CFR § 1910.1200. Such notification shall be made by submitting to the Owner a current Material Safety Data Sheet ("MSDS") for each such hazardous chemical, which MSDS shall comply with the requirements of 29 CFR § 1910.1200. For all "hazardous chemicals" that the Contractor or its subcontractors know, prior to commencement of the work and operations hereunder, will be used in such work and operations, the MSDS shall be submitted prior to commencement of any work or operations hereunder. For any "hazardous chemicals" that the Contractor or subcontractors may thereafter determine will be used, the Contractor or subcontractor shall submit the MSDS as soon as possible, and in all events prior to such "hazardous chemicals" being brought to any of the Owner's plants or jobsites.
 - (b) The original of each MSDS that the Contractor and its subcontractors are required to submit to the Owner as set forth above shall be submitted to the Owner's designated representative in the field for the work hereunder. At the same time as the original is so submitted to the Owner's designated representative in the field, the Contractor shall submit another copy thereof to the Owner's applicable Hazard Communication Coordinator(s) at the address(es) designated on the following page(s) for the location(s) where the work is being performed.
 - (c) The Contractor shall ensure that all "hazardous chemicals" used or supplied by it or its subcontractors in the work and operations hereunder are labeled in accordance with 29 CFR § 1910.1200.
3. Whenever, after an MSDS has been submitted to the Owner in accordance with the above provisions of this Addendum, an updated MSDS becomes required in accordance with 29 CFR § 1910.1200 for a "hazardous chemical" being used by the Contractor or subcontractor, the Contractor shall ensure that such updated MSDS is submitted to the Owner in the same manner as set forth in Item 2(b) of this Addendum.
4. In the event that the Contractor or any of its subcontractor is using "hazardous chemicals" at any of the Owner's plants or jobsites without submitting the required MSDSs or without proper labeling as set forth above, the Contractor shall ensure that such chemicals are immediately removed until an MSDS is formally submitted as set forth above and/or proper labeling is achieved. Any costs that may be incurred from the resulting delay in the work shall be borne fully by the Contractor.
5. The Contractor shall contact both the Owner's designated representative in the field and the applicable Hazard Communication Coordinator(s) or designated alternate(s) before the Contractor or any of its subcontractors mobilize onsite at the Owner's plant or jobsite to confirm the receipt of the information supplied by the Contractor and its subcontractors as required in the above provisions.
6. "Subcontractors," for purposes hereof, shall mean the Contractor's subcontractors of any tier.
7. The Contractor shall indemnify and save the Owner harmless from and against all losses, liabilities, costs, expenses, damages, fines and penalties arising from any failure of the Contractor or any of its subcontractors to comply with the provisions of this Addendum.
